Welcome to 360 Home Inspection LLC

For most people purchasing a home is one of the largest and most significant decisions they will make. A thorough home inspection is essential in the home buying process. It provides information about all the systems of a home and assures the buyer that they are getting appropriate value for their dollars.

At 360 Home Inspection LLC, our goal is to provide the client with all the necessary information on the condition of the property. During our inspection we take the time to carefully examine all aspects of the property and answer any other questions that arise.

All the resulting information is put into an easily understood format for the customer and the report is emailed to you. All reports are based on the standardized Texas Real Estate Inspection report format. Digital photos showing the general condition of the home or specific areas are also included on a CD.

360 Home Inspection LLC is the Austin area home inspector for Trading Spaces on The Learning Channel.

360 Home Inspection LLC is a member of the Austin Board of Realtors. A

Supra Key is available.
